

Which Would You Prefer on Your Restroom Stall Door?

OR

YOU SPEND A LOT OF TIME, MONEY AND ENERGY KEEPING YOUR RESTROOMS CLEAN AND FUNCTIONAL. UNFORTUNATELY ONE OUT-OF-SERVICE STALL CAN RUIN ALL OF YOUR HARD WORK.

This unique device slides over the stationary stall front panel and the moving door panel. It "locks" the door closed, so your customers do not have to see why the facilities are out-of-service. Your customers will only see a door that is "locked" with a polite "Sorry, Out Of Service" message. This is an attractive, sanitary way to notify your patrons that the restroom stall is not to be entered. The **RRSBA** assists in preventing use while the facilities are waiting for service.

These cost efficient, attractive **RestRoom Stall Block-Aides™** fit most stall doors and are made from HIPS resin, which makes them resistant to cracking or chipping when dropped. **The over 12 years in use shows how valuable facility managers find this product.**

The
RestRoom Stall Block-Aide™
Is Your Answer to Out of Service Toilets
